

## Central Elementary Showcase

Central Elementary School is off to a great start for the 2012/2013 school year. We have a new and improved parking plan in place that affords more area for parents to park as they are a vital part of our school community.

A shiny new crosswalk was also installed this summer to insure the safety of our young learners.

Our new school year began with a *Back to School Social* on August 27<sup>th</sup>. As usual, we had a packed house thanks to the efforts of Lisa Dusty and her team of parents! It was a beautiful summer evening where everyone had the opportunity to get reacquainted, climb a rock wall, slide down the bouncy house, enjoy an ice cream sundae (or two), and meet their new grade level teachers.

This year, we have added two new student "reporters", Hannah and Edessa, to our news staff that took pictures at the Social, interviewed some of the attendees, and had this to report:

All the kids at the back to school bash had a great time! Everyone loved the rock wall and the bouncy house! We interviewed a few kids and here is what they said: 5<sup>th</sup> graders, Jackie Andrews and Samantha St. Jean said they are looking forward to a great year! Also, Emily Abram and Faith Lapierre said that they are excited for their new teachers and that they had a great time on the bouncy house! The last 5<sup>th</sup> grader we interviewed was Sarah Leonetti. She said she was excited about the new school year! Then we interviewed two 4<sup>th</sup> graders, their names were Darien McDonough and Amanda Conti! They both agreed that they were very excited to come back to school and that they love their new teachers. Katie Jahnz, Talia Zervas, and Lillie Piasecki said they were extremely excited for their new third grade teachers and

they are going to miss summer. Our last student which was Aaron Fish said that he had a fun summer and his Kindergarten orientation was very enjoyable!

Mrs. Costa, one of the 4<sup>th</sup> grade teachers was our last person to interview. She said she had an excellent summer. She went to Georgia and Disney! Her daughter Paige is now three years old. Her two sons, Jay and Michael, are 7 and 5 years old. She is also looking forward to a great new class, but going to miss the old one. She is SUPER excited for a new year!! ... actually, we are ALL excited about this new school year.
