The Rhode Island Department of Education has enacted The Rhode Island Code of Professional Responsibility and the revised Basic Education Plan (BEP). The Lincoln School Committee and Administration has a statutory responsibility to follow and implement the Department of Education’s rules and regulations.¹ Under the BEP the management and evaluation of the Educator is “essential to the mission of implementing a statewide system of public education.”² The Lincoln School Department adopts this policy as its own and incorporates its contents into the educational mission of the Lincoln School Department. The following policy outlines the expectations and professional responsibilities of Educators in the Lincoln School District.

Preamble

Working with students in Lincoln schools necessitates a public trust and a level of responsibility to our citizens that requires the highest level of professionalism from our educators. Bringing all Lincoln students to proficiency so they can lead fulfilling and productive lives, succeed in academic and employment settings, and contribute to society demands a profession that exists primarily to meet student needs. The development of professional standards for educators, the enforcement of certification requirements, and the regular evaluation of educators address the standards of performance for our profession. As educators who accept the public trust to work in our schools, we also accept the responsibility for professional practice that demonstrates ethical conduct and responsibility. The Lincoln Educator Code of Professional Responsibility establishes a set of principles to guide the conduct of Lincoln’s certified educators and the assessment of conduct in situations that have professional and ethical implications.

As educators, our first responsibility is to our students and to assuring that all students achieve at high levels. As professionals, we also have personal responsibility for establishing high personal standards and monitoring our attainment of these standards. As members of school, district, and professional communities, we are responsible for working collaboratively with others to pursue collective goals. Parents and community members are also important partners in pursuing educational goals. As educators we are also responsible for supporting the policies and procedures of the Board of Regents in assuring that only qualified teachers are entrusted with our state’s classrooms.

The Code contains five core principles that govern the responsibilities and commitments of Lincoln Educators. Consistent with applicable law, the Lincoln School Department’s
